DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 60 is rejected under 35 U.S.C. 102(b) as being anticipated by Shaw U.S. Pat. No. 5,817,058.

Shaw discloses a tubular housing (16); a needle holder assembly having a tubular body slidably engaged inside the housing (12); a retraction mechanism (50); a plunger assembly having a plunger tube (18); a catheter (54); wherein the needle holder assembly comprises a flash chamber with an interior space that is viewable through no more than two layers of clear plastic (fig. 7 and col. 7, lines 23-28).

Response to Arguments

Applicant's arguments filed 5/5/04 have been fully considered but they are not persuasive.

Art Unit: 3763

As to claim 60, Shaw shows that the interior of flash chamber 32 is viewed through at least two layers (fig. 7 and see above rejection).

Response to Amendment

Drawings

Applicant has amended the drawing to overcome the objections. Therefore, the objections have been withdrawn.

Specification

Applicant has amended the Specification to overcome the objections. Therefore, the objections have been withdrawn.

112 rejections

Applicant has amended claims and argued the 112 rejections. Therefore, the rejections have been withdrawn.

Allowable Subject Matter

Claims 1-59 and 61-67 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: As to claim 46, Shaw and Botich discloses an IV catheter substantially as claimed at the time the invention was made except for the engagement structure being biased into engagement with the annular recess of the

needle holder assembly with a force sufficient to prevent the needle holder assembly from being moved toward the plunger assembly by the retraction mechanism.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
